Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

III. DETAILED ACTION

Claims 1-32 are presented for examination and are pending.

Drawings

The Examiner contends that the drawings submitted on September 30, 2003 are acceptable for examination proceedings, only. The drawings are difficult to read.

Claim Rejections - 35 USC . 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter or any new and useful improvement thereof, may obtain a patent therefore, subject to the conditions and requirements of this title.

Claims 1-32 are rejected under 35 U.S.C. 101 because the claims are directed to a non-statutory subject matter, specifically, the claims are not directed towards the final result that is "useful, tangible and concrete.

(See State Street, 149 F.3d at 1373-74 USPQ2d at 1601-02).

According to the New Guidelines of October 26, 2005, which states that "A claim limited to a machine or manufacture, which has a practical application, is statutory. In most cases a

claim to a specific machine or manufacture will have a practical application. See Alappat, 33 F.3d at 1544, 31 USPQ2d at 1557)... a specific machine to produce a useful, concrete, and tangible result and State Street, 149 F.3d at 1373-74 USPQ2d at 1601-02).

(Interim Guidelines for Examination of Patent Applications for Patent Subject Matter Eligibility
<http://rs6.net/tn.jsp?t=mdmd7pbab.0.kbg76pbab.p9giiibab.7440&p=http%3A%2F%2Fwww.uspto.gov%2Fweb%2Foffices%2Fpac%2Fdapp%2Fopla%2Fpreognotice%2Fguidelines101_20051026.pdf>)

Examiner requests Applicant to include in Applicants claimed limitations (in all the claims) the following:

What is the practical application?

What is the result?

What is final result that is concrete, useful and tangible?

Because the "practical application, result, concrete, useful and tangible" limitations are not claimed in Applicant's claims, Examiner believes that the above listed claims are nonstatutory.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Art Unit: 2165

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-34 are rejected under 35 U.S.C. 102(e) as being anticipated by Dougall et al. (U.S. Publication No. 20030093485 A1 and Rodriguez hereinafter).

Regarding Claim 1, 11, and 21, Dougall teaches porting information between locations in a communication network[0034] , the method comprising: storing media along with meta data associated with said stored media on a storage unit coupled to a communication device at a first location; if said storage unit is transferred to a second location and coupled to a second communication device at said second location, presenting a channel guide comprising representations of said stored media on a television [0061][0069] in said second location [0129][0023]; and in response to receiving a selection via said presented

channel guide[0129], displaying at least one media file corresponding to said received selection on at least one of said television and a media player in said second location[0023] .

Regarding Claim 2, Dougall teaches wherein said storage unit is a media processing unit [0069].

Regarding Claim 3, Dougall teaches receiving said stored media at said first location via at least one of a wired and a wireless interface [0064, 0069, 0079].

Regarding Claim 4, Dougall teaches displaying said meta data information associated with said displayed at least one file [0029. 0097].

Regarding Claims 5-6, Dougall teaches transferring at least a portion of said stored media from said storage unit to a storage device associated with said at least one of said television and a media player in said second location [0034] [0030].

Regarding Claim 7, Dougall teaches scheduling ... based on at least a portion of said stored meta data [0024,0028,0119].

Regarding Claim 8, Dougall teaches generating at least a portion of said meta data by said storage unit [0088].

Regarding Claims 9-10, 12-20 and 22-32, these claims are similar in scope to the rejected claims above and are therefore rejected as set forth above.

Other Prior Art Made of Record

The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure. U.S. patents and U.S. patent application publications will not be supplied with Office actions. Examiners advises the Applicant that the cited U.S. patents and patent application publications are available for download via the Office's PAIR. As an alternate source, all U.S. patents and patent application publications are available on the USPTO web site (www.uspto.gov), from the Office of Public Records and from commercial sources. For the use of the Office's PAIR system, Applicants may refer to the Electronic Business Center (EBC) at <http://www.uspto.gov/ebc/index.html> or 1-866-217-9197.
